

## CLOVERDALE IS NOSED OUT BY G H S QUINTET

HIGH SCHOOLS FURNISH THRILLER IN "TRIPLE HEADER" BASKETBALL EVENT IN DEPAUW GYM TUESDAY NIGHT—DEPAUW DEFEATS WILMINGTON

(By Eldon Hill)

In a thrilling basketball game, the Greencastle High School basketball five nosed out a victory over Cloverdale by overcoming a strong lead shortly before the final whistle blew in the second half of the triple-header played on the DePauw hardwood Tuesday night. The score was: Greencastle, 25; Cloverdale, 23.

The contest started with both teams failing to record for five minutes. Capt. H. Black, of the locals, "broke the ice" by registering a free throw. He caged another one-point and then, Shake tallied two goals from fouls, tying the count. Shake made a field goal. Rogers and Todd of the south-putnamers, scored a field marker apiece and with the Cloverdale offensive machine working accurately the score was advanced to 13 to 4 in favor of the "Shakers."

At this time the Cloverdale players called for a rest. Greencastle began to open up the basket shooting gun after play was resumed and the score tightened. It was hotly contested from that time until the end of the first half. The score at the end of the initial period was 17 to 13 with the visitors on the long side of the count.

The last half was a "nip and tuck" battle.

Greencastle stayed within striking distance of the Cloverdale quintet but seemed unable to get into the lead during the early part of the half. The Purple and Grays began to hit the basket with accuracy in the last half and Foster of the Rheamen placed the local squad on even terms 2 minutes before the final whistle by making a field goal. The C. H. S. lads made efforts to take the lead again but seemed a bit lacking in basket shooting accuracy. H. Black ended the scoring by recording a field goal a few seconds before the end of the contest. Score of the last half: Greencastle 12; Cloverdale, 6.

### FRESHMEN DEFEAT BAINBRIDGE HIGH

The DePauw Freshman basketballers were the victors over the Bainbridge High School tilters in the initial contest of the triple-header played in Bowman gym Tuesday night. The final count was 12 to 4.

The game was slow during the first period with neither team showing any flashy basketball. The "Freshies" seemed able to hit the goal with better consistency than the High School tilters. The count at the end of the first half was 12 to 3 in favor of the DePauw first year men.

The time of the final period was limited by agreement to ten minutes. The second half was an uninteresting affair, a free throw recorded by Chadd of Bainbridge was the only tally of the period.

### Notes of the Triple Event

The Freshmen-Bainbridge game was a slow one.

Say, Boy, that Cloverdale bunch went big at first and it looked like a sure win for them early in the game.

Has Cloverdale improved or has Greencastle "Back Slid."

Coach Shake has a smooth running basketball five. They are sure to be conjured with in the District Tournament.

The Greencastle lads put up a grand fight to overcome the Cloverdale lead and nose out the "Shakers."

Cloverdale's basket shooting was far superior to that displayed in the county tournament.

Shake and Rogers are dangerous goal shooters.

Who was it that said Greencastle would have a "walkaway."

It looked "sad" for Greencastle during the early part of the game.

Shake and Rogers each got 4 field goals.

This game will give the district tournament "dopesters" something to think about.

Roachdale should take notice. That Goat they now have in captivity is in danger of changing its pasture.

Dick Taylor was banished for committing four personal fouls. Young Bryan then took up the back guard job and played a "whale of a game."

The game had the crowd "all excited"—It was a real game.

The "Home Boys" were worried a bit during the early part of the game. And they had to give all they had to finally nose out a victory.

Cloverdale went through the game without a substitution.

### AND THIS FROM THE INDIANAPOLIS STAR

(How about it Cloverdale)  
GREENCASTLE, Ind., Feb. 21.—The local high school is the favorite to win in the district high school basketball tournament to be held here March 3 and 4. Although it lost the recent county tournament, local followers declare this was because of illness on the part of three first string men. The team has made a good record this year and has won a majority of its long string of games. Coach Rhea, who is in charge of the squad, is an ex-Clayton High School player and played at Indiana. Last year he coached at Roachdale.

## KICKS AGAINST REFORMATORY TO BE HEADED

GOVERNOR McCRAE DECLARES OBJECTIONS RAISED TO CHOICE OF SITE WILL AFFECT STATE'S DECISION—CARMEL, SENTIMENT SPLIT

### REFORMATORY SITE DECISION IS NEAR

INDIANAPOLIS, Feb. 22.—Virtually a definite selection of a site to which to move the Indiana Reformatory is expected to be made today. The selection may not be announced today because it is understood the relocation commission may select two or three sites and then finally accept the one whose owners offer the lowest price. This dickering may require several days.

INDIANA STATE CAPITOL, Feb. 21.—Governor McCray said today that protests received by the reformatory relocation commission from citizens of a number of towns against the selection of sites for the reformatory in their communities probably will have some effect on the final decision of the commission.

"As far as I am concerned personally," said the Governor, "I do not favor thrusting the reformatory down the throat of a community that does not want the institution."

The announcement of the Governor indicates, it is said, that the commission will consider seriously protests filed against the selection of a proposed site near Carmel, Ind.

Carmel Sentiment Divided  
Sentiment at Carmel, however, appears divided in regard to the location of the reformatory there. Persons interested in the location of the institution at Carmel announced today that a delegation will be brought to Indianapolis tomorrow in two interurban cars to appear before the commission and urge the selection of the site there.

The commission will meet Wednesday afternoon at 2:30. It has been announced that the meeting will be a closed session and that no delegations are wanted. Despite this announcement, leaders of the pro-Carmel faction hope to obtain an audience for their delegation before the commission.

Governor McCray, in discussing the reformatory situation, declared the relocation commission can be counted on "to do the right thing."

A. G. Brown, cashier of the First National Bank was in Indianapolis, Wednesday, attending the meeting of the State Rotary Clubs.

### STOCK HOLDERS CONFIRM BANK CONSOLIDATION

Stockholders of each the First National Bank and the Citizens National Bank met on Tuesday to vote upon the proposition submitted to them by the Boards of Directors of each of the institutions to consolidate the two institutions.

In each instance the stockholders ratified the action of the directors and the consolidation of the two institutions soon will be perfected.

## FORMER DEPAUW COACH MAY GET A JOB AT PURDUE

MANHATTAN, Kas., February 21.—Mike O'Hearn, athletic director at the Kansas State Agricultural College, today confirmed reports prevalent at the school for several days that Charles Bachman, head coach has been invited to become football coach at Purdue University. So far Bachman has made no announcement in connection with the reported offer.

Bachman played on the Notre Dame football team in '14, '15, and '16. He shifted from tackle position to guard in 1914 when Fitzgerald went to center to replace All Feeney, of Indianapolis. In '15 and '16 Bachman alternated at guard and fullback. John Miller was regular fullback at that time. Eichenlaub having finished in 1914.

Bachman gained backfield and line experience in this way and consequently prepared himself for coaching. His first coaching experience was at DePauw in 1917, when he assisted Coach Buss in developing the DePauw team. He later coached at Northwestern but on account of having all sports to handle Bachman preferred to leave for the west. He has been football coach at the Kansas State Agricultural College for two seasons and has been highly successful.

Forty-one to 18 was the score.

Following the Cloverdale-Greencastle High School "thriller" game, the DePauw-Wilmington game was a quiet affair. The Tigers had the visitors totally outclassed.

### SAY, BY THE WAY

If you put the date in figures today it sounds like you were playing "Train." Here it is "Two, two two, 19 two two." Ain't that cute?

DePauw's next game is with Notre Dame at South Bend.

It is said that the DePauw Athletic Coach is going to force Coach Pete Vaughan of Wabash to schedule another basketball game with DePauw. He plans to "rent a hall" in Indianapolis and then "hurl a defy" at Pete.

"Let's do it now, why wait?"

Fred Thomas says that if a wireless telephone records all concerts, there was one Tuesday night, in which two cats on his back yard fence participated, that should have been heard all over the continent.

Some people are wondering why the booze runners who ran over Frank Vaughan on the Ocean-to-Ocean highway Monday morning, threw away their white mule after they had cleared all obstructions and had headed for Indianapolis.

This is the anniversary of the birth of George Washington. You will probably remember him as the lad who cut down the cherry tree.

Spring has "came," maybe.

Polly Ruick, of the DePauw alumni says that next to golf, basketball is the most deeply psychological game of the college sports. And that the trouble with the DePauwites against Wabash is the mental attitude.

Isn't it about time to call another special session of the legislature to straighten out the reformatory site situation again?

## THIRTY-FOUR ARE KILLED IN WRECK OF BIG AIRSHIP

GIANT DIRIGIBLE, PLUNGES 1,000 FEET TO THE GROUND AT THE HAMPTON ROADS NAVAL BASE—HIGH TENSION ELECTRIC WIRES CAUSED SHIP TO EXPLODE AND THEN BURN—ELEVEN ARE SAVED

NORFOLK, Va., Feb. 21.—Thirty-four men were killed, eight were injured seriously and three were uninjured or only slightly bruised when the giant army airship Roma, with her crew and a number of civilians, totalling forty-five in all aboard, plunged today from 1,000 feet or more in the air to the ground at the Hampton Roads naval base.

The accident presumably was caused by a broken rudder and as the huge dirigible plunged to earth it capsized across a high tension electric line, bursting into a roaring furnace of blazing hydrogen gas.

Long after dark tonight, many hours after her fall the ship was still a mass of flames from end to end of her 410-foot mass. The fire fed on the million cubic feet of gas which had distended the great bag for the flight and made all attempts at rescue work futile.

### Only Eleven Escape Alive

Barely a dozen of those aboard were picked up alive and one of these died on the way to the hospital. All of those who survived the fire escaped by jumping as the ship struck. The others, penned in the hull of the fallen bag, were burned to death.

The flames were brought into submission by three fire departments who fought them with chemicals. And then derricks began picking up the wreckage which consisted of scarcely more than the aluminum frame work and the six Liberty motors of the once proud ship of the air.

Within the wreckage lay the bodies practically all charred beyond recognition. But before the night had passed thirty three bodies had been removed, accounting for the last of those who were known to have taken flight on the fatal voyage.

Accounts of survivors and of eye witnesses as to what had happened appeared to agree tonight that the huge kite-like structure of the stern rudder, itself as large as a bombing plane, had slipped to one side as the Roma drove along 1,000 feet above the army base.

### Testing New Motors

She was making a trial flight with a new battery of Liberty motors. They were installed to replace Italian engines bought with her in Italy, but which have not proved satisfactory. Installation was completed at Langley field two weeks ago.

It was just before 2 p. m. when those below at the army base at Hampton Roads had their attention caught by the approaching thunder of the six motors looked up to see the Roma dip down from her straight flight. They agree that the rudder seemed to have slipped bodily down to one side.

The ship nosed steeply down. As she came close it was seen that her crew were hurling out sand ballast from the ports in the fragile fabric that formed the covering of the space between her keel and back, the living and operating quarters of the ship.

### Ship's Plunge Unchecked

The dipping blunt nose of the bag did not respond. On the ship came unchecked in her glide earthward, head first. Her commander could not force her the few hundred feet that would have dropped her into the waters of the bay and comparative safety for her people.

Below ran the double wires of the high power electric line. It carried a 2,300-volt current. The Roma's nose shod with its aluminum guard thrust into the wires, broke them as the ship flattened to earth and rolled over, and the next moment came the noise of an explosion and the flames burst out along the hull space.

State of Indiana,  
Putnam County, SS:  
Before the Board of Commissioners of Putnam County, Indiana.

To the Honorable Board of Commissioners of said county:

The undersigned would represent to this board that they and each of them are freeholders and voters in the county of Putnam and state of Indiana, and we ask that you take the proper legal and lawful procedure to lay out, establish and improve the following public highway situate in Greencastle Township and Greencastle City, and described as follows: beginning at a point 979 feet west and 21 feet north of the northeast corner of the south half of the southeast quarter of section 16, Township 14 North, Range 4 west, said point being in the center of the Greencastle and Bainbridge road; thence south 1 1/2 degrees west 1043.7 feet; thence south parallel with the east line of said southeast quarter of said section 16, eight hundred thirty five feet to the North line of Franklin Street, in the City of Greencastle, Indiana, being a total distance of 1878.7 feet;

And your petitioners ask that said public highway above described be laid out, established and improved as a new public highway in said township and city, by opening up, draining and paving with macadam from and between said terminal points and we further show that said road will connect with a free gravel road as one of its termini and at the other terminus with Franklin Street in the City of Greencastle, Putnam County, Indiana, which street is an improved highway, and we further show that six of the undersigned petitioners are resident freeholders and reside in the immediate neighborhood of the high way herein proposed to be located, established and improved. ## THAT DULL ACHING

Don't worry and complain about a bad back. Get rid of it! For weak kidneys, lame and aching backs, your neighbors recommend Doan's Kidney Pills. Ask your neighbor. Read this statement:

Mrs. R. Stiles, 406 N. Madison St., Greencastle, says: "When living in the country I was stricken down with kidney trouble. It started with sharp, shooting pains in my side, darting down to my knees, then a heavy, dull, nagging pain in the small of my back and across my hips. I got so lame I could hardly get out of a chair after sitting down a few minutes and when I would stoop I would get so dizzy I would almost fall over. I got Doan's Kidney Pills and they cured me and left me feeling as well as ever. I recommend Doan's Kidney Pills knowing that they are just what is claimed for them."

## MANY KINDS OF MACARONI.

Made From Different Foodstuffs by Different Nationalities.

There are almost a dozen different kinds of macaronis on the Manhattan market, yet the average American macaroni manufacturer could tell you of only one kind—the wheat macaroni.

For the others you must go among the different nationalities of Gotham. For rye macaroni visit Manhattan Jewry; for pure rice macaroni the Chinese quarter; for bean macaroni the Italian and Sicilian tenements; for all cheese macaroni (pure caserol) Little Italy, or Mulberry Plaza region, and for the curious "combed" macaroni of Arabic speaking people make a down-town trip through the Syrian section.

This last is a high grade wheat macaroni and is "combed" out by hand (whence its name) by means of a steel comb from thin layers of the prepared stiff dough. It commands a high price in the macaroni market, retailing at 25 to 30 cents a pound. It is more speedily cooked than the ordinary tubed macaronis, but the structure breaks down and pastifies if boiled too vigorously. It can be and is used for all the various dishes to which the common article is susceptible.

The word macaroni, by the way, is used by all nations—Syrians to Orientals. It is spelled by them with a "k." Its origin is Asiatic, not Italian.

## A Zakopane House.

A Zakopane house is a very carefully finished wooden structure, built of tight-fitting, heavy logs of spruce, which become reddish brown with age, and are surmounted by a very steep, high shingle roof which gives a good protection against the heavy falls of snow and rain, and with its triangular gables of acute angles harmonizes well with the Tatra peaks and the tall spruce trees. The frame of the door is built of very heavy blocks of wood, surmounted by a semicircular arch, joined together by two anchor-shaped pieces, and held in place by rows of elaborately carved wooden pegs. The big rafters of the ceiling are embellished with carved ornaments of a very unique conception. The circular kolo zbzyeckie, the heart-shaped pazentisa, and the swastika, with sharp points, are some of the main motives of this odd ornamentation with which the goorals in a very judicious way adorn their ash-wood furniture, wooden vessels, and instruments. It is wonderful how in the center of old Europe they have remained unaffected by the levelling force of modern civilization, and have developed a style absolutely unlike anything even the nearer parts of Poland or in neighboring Hungary.—Century.

## The Mysteries of Sleep.

It is related of a Chinese merchant who was convicted of wife murder and sentenced to die by being deprived of sleep, that he was placed in prison with guards changed hourly for the purpose of preventing him from sleeping. After the commencement of the eighth day his suffering was so intense that he implored the authorities to strangle, guillotine, burn him, drown him, garrote, shoot, quarter, blow up with gunpowder, or put him to death in any conceivable way.

Natural sleep has been defined as mental rest produced by an appetite resulting from fatigue. But the idea that mental rest means mental inaction is hardly tenable, inasmuch as it quite frequently happens that the solution of unsolved problems is the first thing to appear in the consciousness on awakening, and thus the mind must have been operative while asleep.—Harper's Weekly.

## Beginning of Rhyming.

Dr. Douglas Hyde, the famous Celtic scholar, in the course of a recent address at the University of California, claimed, on the authority of eminent German and Italian scholars, that "Ireland taught Europe the art of rhyming." He said further: "The earliest recorded rhymes in Europe are those in Latin, written by Augustine. He composed them while surrounded by a Celtic-speaking people in the south of Gaul. In the year 750 A. D. we find the Irish people making perfect and elaborate rhymes. It was not done in other countries for two centuries later."

## Sunshine and Sugar Growth.

The effect of sunshine on sugar growing is said by the New Orleans Playune to make the crop more productive. Thus Spain has become as successful with beet sugar growing as with her established cane sugar industry, notwithstanding an arid climate. On the other hand the storms and fogs that envelop the British Islands are said to have prevented the development of the beet sugar industry there. England's annual average hours of sunshine are only 1,400, while Spain has 3,000 hours.

## Portuguese Burial Custom.

They have an unusual mode of burial in Portugal. Instead of the headstones and monuments of the graveyards of other countries the cemetery of Lisbon shows rows and rows of tiny chapels ranged in long avenues bordered by cypress trees. The Portuguese are reluctant to bury their dead out of sight and these chapels serve as mortuaries for the coffins, which are placed on shelves within. Through the iron grilles the eye discerns small altars and flowers gleaming through the subdued light of the interiors.—Manchester Courier.

## PAID FANCY PRICES

"I paid an international authority on diseases of the stomach \$1,500 and he didn't do me five cents' worth of good. I have been to various Spas in Europe, as well as this country and have spent fully \$30,000 fruitlessly in search of a cure for my stomach trouble. Naturally I lost faith in any

remedy for my case. My wife's brother had taken Mayr's Wonderful Remedy and praised it so highly that I tried it and am now entirely rid of that trouble. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all leading druggists everywhere.

## If a Man Buys a Saw

That Holds Its Edge, Cuts Well, Fits His Hand and Balances Just Right, He Develops a Feeling of Friendship for That Particular Saw and Will Use No Other. When It Wears Out He Buys One Just Like It.

THE success of any product, whether that product be a saw, a pound of sugar or a newspaper, depends upon the consumer's (or readers') opinion of it. Hence it follows that the ultimate success of any product or any newspaper depends upon the merit of the article itself.

When manufacturer sells goods on which he has placed his mark of identity (his brand) or publishes a newspaper with his name nailed to its masthead he identifies it. He fixes his own responsibility.

If he wants to make his business permanent and successful he maintains right quality always and if he fails to do this, his first sale will be his last.

A newspaper, like any commodity, varies in quality and value accordingly as the man or men back of it set a standard. The consumer may buy the first time on CHANCE but the next time he buys on SATISFACTION.

Each year an increasing number of the dominant industries of this community who have sought and are seeking the patronage of the people of Greencastle and buying territory adjacent thereto, have placed their advertising in The Greencastle Herald, with its circulation of more than 2,000 prosperous people.
